Taking Action is a partnership comprised of community leaders, parents, service and care providers.

Together, we are building an integrated system of care and support that local families can access — easily and efficiently.

Our goals include:

• helping families get the care and developmental support they need
• fostering streamlined, timely processes for early detection
• providing a helping hand to families navigating our local support system
• leveraging community partner collaborations for greater efficiency
• keeping community leaders informed about gaps in services and other challenges confronting families with kids who have special needs

Questions about a child’s development or needs?
