

Paying for Diapers with Apple Health Coverage

If your child:

- Is on Apple Health medical
- Has special health care needs, and
- Is 3 years or older

You can use the Apple Health Provider One medical to buy diapers from the vendors listed below.

- Once per month
- For a limit of 200 diapers per month

Steps to Take

1. Have the following information ready:
 - Your child's Provider One card
 - Insurance card
 - Your child's Social Security number and birth date
 - Your child's doctor's name, address, fax and phone numbers
2. Call one of the three vendors listed below and ask for "intake" to set up an account.
3. Tell them your child has special health care needs, is on Provider One medical, and you want to order diapers.
4. They'll ask you some questions, and they will contact the doctor for a prescription and other information. The vendor will send the diapers to you by UPS.

Medicaid rules and vendors change, so please check with vendors to be sure they still provide this service.
